

State And Transition Model Diagram: SHALLOW GRAVELLY 16-22” Low Sage/Idaho Fescue

The Reference State (State 1), the Potential Natural Community (PNC), moves through many phases depending on the natural and man-made forces that impact the community over time. The Reference Plant Community Phase that reflects the PNC is Phase A.

Legend

- IGM- Improper grazing management
- PG- Prescribed grazing
- NF- No fire
- FF- Frequent fire
- F- Fire
- Community pathway within states
- > Reversible transition
- Irreversible transition
- Threshold
